About Us

PREMIUM SYSTEMS a Pioneer in bath fittings was established in 1994 by **Shri Sanjeev Gupta**, a technocrat from **DELHI COLLEGE OF ENGINEERING**. He introduced **GOLDLINE** brand in Bath fittings. In the last 25 years Goldline has established credibility in terms of Quality, competitive Pricing, on time Delivery, widest Range, exquisite Designs, all these backed up with excellent after sales Service. We have been constantly working on each of these parameters continuously, keeping in view customer requirements and satisfaction. **JOURNEY:** Started in 1994 with a vision to create zero defect bath fittings and with a mission to make best Quality bath fitting with modern design and aesthetic looks at a competitive price suiting every buyer of varying financial prowess of our great country. We started with Delhi market but now **GOLDLINE** products are available in entire length & breadth of India and also we are exporting to **SRILANKA** and **GULF countries**.

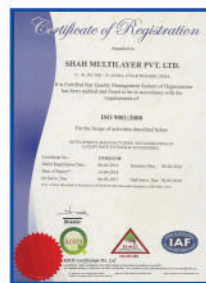

PRODUCT RANGE :

- C.P. Fittings: **GOLDLINE** started with just 2 designs continental & Queens in 1994, now we are proud to say that we have more than 50 designs and also we claim and challenge that no other established brand has such a huge number of designs. Even after 25 years our Continental Range is very popular, this proves that we have constantly been taking care of customer taste & choice with stringent quality checks.
- GOLDLINE** can very proudly say that it has got all type of products like **Showers, Health Faucets, Accessories, Stainless Steel Sinks, PVC Cistern, PTMT Taps, Sensor Taps, Ball Valve & Check Valve.**
- We have Single Lever exclusive ranges for high-end customers as well as economical ranges to suit each & every pocket.
- We have forged body Diverters in high flow, and in 3 in-lets. We also specialize in Thermostatic Diverters.

And all this are In-House production under one roof.

ISO CERTIFICATION :

our company is ISO 9001:2008 certified and our PTMT Taps are ISI certified & very soon our C.P. fitting too will be BIS certified as the certification is under process.

GMP CERTIFIED :

GMP certifications is a system for ensuring that products are consistently produced and controlled accredited quality standards.

EXHIBITIONS

GOLDLINE is constantly participating in exhibitions in India & Abroad. To name few we have participated in **BIG5 Dubai**, **In BUILDTECH** in Sri Lanka & Muscat. **ACE TECH** in Delhi & Mumbai.

Distribution Network :

WHY YOU CHOOSE GOLDLINE ?

Every **GOLDLINE** product passes through set quality standards at every stage before it is packed to be delivered to the valuable customers. We follow BIS standards to make sure each & every faucet is tested to perform years after years.

We ensure :

- i) Brass composition: Copper 56-59% in our raw material as well as finished products.
- ii) All Rubber washers are of synthetic material and their shore hardness and tensile strength are tested as per BIS standards.
- iii) All screws used are SS304 quality.
- iv) Nickel and Chrome coating Ni > 10 microns and CR > 0.3 microns also we are doing 450 hrs salt spray test, To ensure corrosion resistance & long life of Nickel and chrome and a shiny and smooth surface.
- v) Testing : Each and every brass fitting is tested for 5.0 lac cycles at 5-7 bar water pressure to ensure there is no leakage and every faucet we produce has a stamp of **GOLDLINE** quality.
- vi) Even we have set standards for corrugated boxes to ensure that each and every product reaches safely to its destination.

PROMPT SERVICE ON-SITE :

We have well trained team of Technicians who provides prompt & satisfactory service on-site for concealed items.

WARRANTY :

25 Years of customer satisfaction & love. Unmatched warranty of upto 10 years (Condition apply). For more details read the warranty card. **GOLDLINE** products are available Pan India.

This makes GOLDLINE Products number one choice for everyone.

FAUCETS TECHNOLOGIES

Goldline introduced advanced technologies, and thanks to more than 25 years of accumulation of technology, Goldline's products are easy to use, stable in quality, and efficient in energy. We focus in comfortable use, and at the same time take into consideration of the water-saving and environment protection. Each Goldline production represents the perfect combination of technology, quality and design.

Qualified brass material

Using high-class brass material to ensure the health of water using from source.

Water saving design

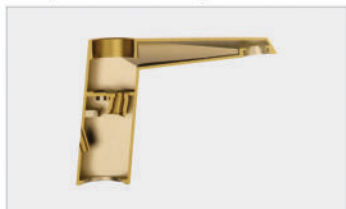

Using air injection technique to make water flow be plentiful and lively, improve utilization of water.

Advanced surface finish process

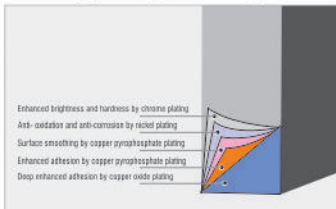

After accurate milling, and full automatic polishing, the cast surface will be with clear outline to show the product design well.

Low pressure casting

Adopting the advanced low pressure casting technology can avoid the possibility of air and impurity entrance. The casting will be with high density and fewer defects, which can ensure the durability of products.

Shinning plating technology

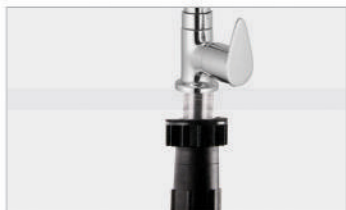

Double nanoscale plating finish with high hardness, good corrosion resistance and excellent abrasion resistance, is bright as mirror and enduring as time goes by.

Qualified valve

Superior ceramic cartridge with natural alumina ceramic chip, which attains Mohs rigidity level 9, just less than that of diamond (level 10) and with the advantage of high pressure temperature resistance, good abrasion resistance, stable chemical property, excellent anti-leakage capability and smooth switch. The life cycle of our cartridges is up to 500,000 cycles.

Fast installation structure

Using long barrel and large nut as installation components of faucets, make it convenient and fast to install the faucets firmly without any tools.

CNC machining

The faucets are machined by CNC machine, with accurate and stable dimension, to ensure the stability of assembly and avoid the product leaking.
