

For bathrooms

Almost 100 years ago

KLUDI began manufacturing bathroom fittings using traditional methods of craftsmanship. Followed by high-quality, reliable fixtures of timeless design, this expertise formed the foundation of KLUDI. From the tradition as a faucet specialist, the goal was created to combine the highest quality of use and perfect design in a unique way. Thus the claim Water in Perfection finds unmistakable expression in our products as well as in all services we provide for our customers.

It inspires and drives

our future activities.

Discover the variety of our  
kitchen fittings.

# KLUDI – the most innovative brand

An independent international group of experts has presented the KLUDI brand with an award for outstanding achievement in the areas of quality, functionality, ergonomics, design and ecology. The Plus X Award for the Most Innovative Brand confirms KLUDI's reputation for excellence and its strong position on the international market. As the award has been presented to relatively few companies in the sanitation industry, we are very proud to have received this title.

Find out how many of our products have been recognised in international competitions, and have been recommended by international groups of product design experts.

## Plus X Award

Many of our fittings have been given the international Plus X Award seal of approval, which guarantees that these fittings are made of high-quality components, and that the design is based on a thorough analysis of the users' needs. Having observed our commitment to creating outstanding products, millions of people around the world have chosen outstanding KLUDI fittings for their home.

## Red Dot Design Award

The Red Dot Design Award is one of the most prestigious design awards in the world. The international title is awarded exclusively to products with an exceptionally refined and functional design.

To meet the changing needs of our customers, KLUDI continuously tracks the latest trends in bathroom design.

## KLUDI FLEXX.BOXX

### A universal concealed module

Are you still undecided about which fittings to use in your bathroom, even though the bathroom installation is nearly complete? No problem! Simply install the KLUDI FLEXX.BOXX concealed module and select the perfect fittings at a later point in time. This solution gives you the option of installing all kinds of wall-mounted fittings, including models with a mixer, a thermostat, and a built-in regulation valve.

#### Benefits of the KLUDI FLEXX.BOXX concealed module:

- allows you to select wall-mounted fittings at any point in time after the KLUDI FLEXX.BOXX module has been installed
- allows you to exchange standard fittings for thermostatic fittings in the future
- the module's elastomer coating provides the maximum level of acoustic isolation, which greatly reduces the noise made by the flowing water
- provides a high level of protection from condensation and moisture
- can be installed even on irregular or uneven walls

The product is compatible with the following series:

KLUDI AMBA, KLUDI E2, KLUDI BALANCE, KLUDI Q-BEO, KLUDI AMEO, KLUDI OBJEKTA, KLUDI BOZZ, KLUDI ZENTA, KLUDI PUSH, KLUDI PROVITA

The KLUDI FLEXX.BOXX module is compatible with the majority of KLUDI fittings.

## KLUDI PUSH

### Simply click

A compact form combined with an intuitive design are the greatest assets of the KLUDI PUSH mixer. Turn the shower on and off by pressing a single on/off button. Or, if you want to use two water sources – such as a hand shower and a head shower – choose the model with two buttons. This mixer works especially well with the KLUDI A-QA wall supply, which allows you to set the perfect water flow.

The KLUDI PUSH mixer has been recognised by the German Design Award 2016 committee for its outstanding design and ergonomics.

#### Benefits of the KLUDI PUSH mixer:

- allows you to use two water sources at the same time
- the hot water temperature control ensures safety
- easy to use
- perfect for tiny bathrooms
- compatible with KLUDI FLEXX.BOXX

The KLUDI A-QA wall supply is a convenient solution that allows you to adjust the water flow to the preferred level.

## Electronic KLUDI mixers – control the water flow with a flick of your finger

Presenting state-of-the-art technology: the fitting detects the movement of your hand, turning on the water flow automatically. When you move your hand within range of the sensor (1 to 5 cm), the fitting will automatically turn on the water flow, and then turn it off after you finish using the water.

### Benefits of a mixer with an electronic motion sensor:

- touch-free operation of the water flow
- optimisation of the temperature and the amount of water used
- the fitting needs less frequent cleaning

The temperature regulation handle enables you to set a constant water temperature.

The function is used in the following series:  
KLUDI BALANCE, KLUDI ZENTA

## New s-pointer eco A good direction!

Regardless of the shape and size of your washbasin, you can easily adjust the water flow to avoid splashing. The new s-pointer eco aerator enables you to adjust the angle of the water stream, and limit the water flow to 6l/min, even with higher water pressure.

### Benefits of the new s-pointer eco:

- allows you to adjust the water flow with a touch of your finger
- flow limited to 6l/min, even with higher water pressure
- soft, aerated spray
- highly resistant to mineral deposits

The function is used in the following series:  
KLUDI AMBA, KLUDI E2, KLUDI BALANCE,  
KLUDI Q-BEO, KLUDI AMEO, KLUDI OBJEKTA,  
KLUDI BOZZ, KLUDI ZENTA

## Bathroom fittings Always at the proper level

The height of your fitting will never limit you again. Now you can choose your dream washbasin and then select the right mixer. Our fittings come in a range of heights, giving you the freedom to design and use your bathroom any way you want.

### Benefits of having a range of mixer heights:

- the mixer's ergonomic design makes it comfortable to use
- the mixer's height can be easily adjusted to the size of the washbasin
- offers new opportunities for arranging your bathroom

The function is used in the following series:  
KLUDI AMBA, KLUDI E2, KLUDI BALANCE, KLUDI AMEO,  
KLUDI OBJEKTA, KLUDI BOZZ, KLUDI ZENTA

## EcoPlus function Easy on your budget

Originally designed for public buildings, the EcoPlus function (available in the KLUDI ZENTA fittings) is quickly becoming a popular choice for homeowners. The standard middle position of the handle allows cold water to flow. If you need water at a higher temperature, simply move the handle to the left.

### Benefits of a mixer with an EcoPlus function:

- the hot water is turned on by moving the lever to the left
- provides water and energy savings
- can lower utility expenses
- allows you to regulate the water temperature quickly and easily

The function is used in the following series:  
KLUDI ZENTA, KLUDI Pure&Easy

## KLUDI HotStop! Temperature under control

Do you have children? Is your bathroom used by older family members? Or maybe you have always wanted to enjoy a constant water temperature when you shower? Choose a mixer with the HotStop function, which reduces temperature fluctuations in the water supply network and eliminates the risk of scalding.

### Benefits of HotStop function:

- stops the hot water flow from exceeding 38°C
- allows you to raise the water temperature beyond 38°C by pressing the temperature limit button
- guarantees comfort and safety

The function is used in the following series:  
KLUDI ADLON, KLUDI AMBA, KLUDI BALANCE,  
KLUDI AMEO, KLUDI Q-BEO, KLUDI E2, KLUDI OBJEKTA,  
KLUDI BOZZ, KLUDI ZENTA, KLUDI PUSH, KLUDI FIZZ,  
KLUDI MEDI CARE, KLUDI LOGO, KLUDI MEDI MIX,  
KLUDI PROVITA

## Head shower

### Everyday comfort

A morning shower is energising and stimulating, triggering oxygenation and the release of endorphins – in short, taking a shower is a more effective way to wake up than drinking a cup of espresso. The crucial role a shower system, and especially a head shower, can play in lifting your mood is one reason why choosing the right shower fitting for your home is so important.

With the Dual Shower System, you can modify the spray to suit your personal preferences and the size of your shower cabin by adjusting the head shower vertically (up to 30 cm) and horizontally.

#### Benefits of the head shower:

- the water flows straight down, ensuring a pleasant and relaxing showering experience
- the diffused spray is delicate and soothing
- the Dual Shower System enables you to optimise the space in your shower cabin by making fine height (up to 30 cm) and horizontal adjustments

The function is used in the following series:  
KLUDI COCKPIT Discovery, KLUDI FIZZ, KLUDI A-QA,  
KLUDI FRESHLINE, KLUDI LOGO

Set the angle of the head shower for maximal comfort.

## The perfect hand shower

### Three spray settings

You are no doubt familiar with the advantages of having a shower in the bathroom: showering is quicker and uses less water than bathing, and a shower takes up less space than a bathtub. Moreover, taking a shower, like taking a bath, can be a stimulating and refreshing experience, helping you relax and unwind. A hand shower with three spray settings is a source of pleasure, giving you the choice of enjoying a volume jet, a smooth spray or a massaging jet.

#### **Smooth spray**

A soft and aerated water spray will wash away the stress and tension built up over a long, tiring day.

#### **Booster**

A strong massaging jet will reduce your fatigue and relax your muscles.

#### **Benefits of the hand shower with three spray settings:**

- you can modify the spray by using the ergonomic switch or by turning the shield of the hand shower
- the soft and aerated smooth spray is relaxing and calming
- the wide volume jet spray provides a full, comfortable showering experience
- the booster spray provides an intense and energising jet for massaging specific points on your body

#### **Volume jet**

A wide shower spray is refreshing and energising.

The function is used in the following series:  
KLUDI FIZZ, KLUDI FRESHLINE, KLUDI LOGO

## A system for expelling water from the hand shower

To ensure the highest levels of hygiene and comfort, KLUDI created a drip-proof hand shower – a technological solution that ensures that all water is expelled from the hand shower after use.

### Benefits of expelling water from the hand shower:

- enhances shower comfort
- improves hygiene
- makes it easier to maintain a clean bathroom

The function is used in the following series:  
KLUDI FIZZ, KLUDI FRESHLINE, KLUDI LOGO

## Anti-torsional shower hose Protection and comfort

When you are using an elastic KLUDI hose with an anti-torsion function, you do not have to remember to adjust your hand shower before you start bathing. The elastic coating of the hose also ensures that you will not accidentally scratch or dent the surface of your bathtub or shower cabin.

### Benefits of the anti-torsional shower hose:

- after the shower, the hose returns to its original position
- provides protection from accidental scratches to the bathtub or shower cabin surfaces

The function is used in the following series:  
KLUDI SUPARAFLEX

**510104520**

Waschtischarmatur DN 15

**515254520**

Wannenfüll- und  
Brausearmatur DN 15

## KLUDI ADLON

### Timeless design

A special product line perfect for lovers of old photographs, tasteful vinyl and retro style. The KLUDI ADLON fittings perfectly reflect the spirit of the past, taking you back to an era when great design was all the rage. The fitting's unique form,

unusually shaped dials, and tastefully gilded finish come together to create an elegant vintage piece. A KLUDI ADLON fitting complements any bathroom in which modern technology meets classic design.

The KLUDI ADLON line is a marriage of retro style with high-end aesthetics – tasteful, sophisticated and unconventional.

The striking shape of the spout is a model of refinement.

The beauty of the KLUDI ADLON fitting lies in its cross-shaped handles and porcelain inlays.

## Craftsmanship and passion

Fittings coated with 23-carat gold will captivate anyone who appreciates quality and technical precision. A golden fitting is a perfect finishing touch in a bathroom designed in a classic retro style with a contrasting colour palette – like a combination of black and white.

## KLUDI AMBA

### The perfect form

While it has the beauty and delicacy of a fine sculpture, its soft and organic shape is hardly all this mixer has to offer. The KLUDI AMBA fitting combines perfect form and functionality, with subtle lines and a handle

that is intuitive to operate. The monolithic form of the fitting paired with a stone surface and a bowl-shaped vessel washbasin call to mind the harmonious aesthetics of a spa resort in the Far East.

The unique design of the KLUDI AMBA series has been recognised by experts. The series has received a number of international awards for its exceptional design, high quality and usability.

The discreet handle is integrated into the monolithic form.

The small knob perfectly complements the mixer's shape.

# Total freedom

Freestanding or wall-mounted? Design your bathroom to achieve maximum comfort without sacrificing aesthetics. Regardless of how they are installed, these washbasin mixers look phenomenal.

## KLUDI E2

### The straight line

The ancients associated architecture with mathematical precision and ideal proportions. They sought harmony in their surroundings and tried to recreate it in their interiors. If you share their belief in the enduring principles of beauty, allow yourself to be inspired by the geometric shapes, straight lines and subtle forms of classical designs. The gentle curves and rounded

surfaces of the KLUDI E2 line make these fittings the perfect solution for lovers of tradition who nonetheless appreciate modern design. With a fitting from the KLUDI E2 line, you can create an interior that follows the principles of timeless design: organised, harmonious, and combining conventional forms.

The sturdy shape of the spout is complemented by the light form of the lever.

The discreet markings for cold and hot water on the handle emphasise the modern character of the fitting.

The strong lines and gentle curves of the fitting will also complement a bathroom with a classic design.

**492970575**  
single-lever basin mixer

## The power of detail

In an elegant and functional interior, every detail matters. Giving careful consideration to ergonomics and design when choosing solutions for your bathroom will enable you to create a bathroom that looks and feels perfect in every way.

The spare form of the fitting and its wall-mounting system give the interior a modern look.

## Where form meets ergonomics

Do you prefer an energising shower or a relaxing bath with essential oils? A practical and convenient shower/bathtub diverter that allows you to instantly choose the type of water flow you want makes resolving this dilemma easy.

The form of the hand shower embodies the principles of modern design.

Now you can end a hot bath with a stimulating cold shower with just a flick of your hand.

## Discretion guaranteed

Most of the functional elements are concealed behind the wall. Only the elements of the system that are needed to operate the fitting are visible, such as the subtle designer handle with a modern shape.

As well as being beautiful, the soft curve of the handle is gratifying to the touch, fitting your hand like a glove.

## A private space

An open shower in a bedroom? Why not? The integrated design creates a feeling of light and space. A sleek shower cabin with fine fittings is an attractive alternative to a bathtub.

A wall-mounted or a concealed mixer? Which do you prefer?

The wall-mounted shower mixer can easily double as a shelf for your toiletries.

# KLUDI BALANCE

## The shape of nature

With their meticulously constructed smooth surfaces and gentle curves, KLUDI BALANCE fittings exemplify refined aesthetics. These fittings are perfect for lovers of original and bold designs who are not afraid to choose daring design elements like a concrete

textured ceiling, darkly coloured wooden surfaces, or a sink top made of massive stone. In this striking combination of design and function, the details – such as a handle which seems to float above the mixer body – grab the attention.

This perfectly made fitting will enchant any fan of great design.

The delicate, round base of the handle is stunning in its form and functionality.

Large horizontal surfaces blend harmoniously with organic curves.

522980575  
single-lever washbowl mixer

## An ideal combination

KLUDI BALANCE offers the perfect combination of aesthetics and functionality. The new s-pointer eco aerator and ceramic cartridges with hot water flow control are concealed within a beautiful form, enabling you to enjoy using an exquisitely designed mixer while conserving precious natural resources.

Wall-mounted basin mixers are becoming increasingly popular among interior designers.

# One series, many possibilities

Do you prefer a bold, freestanding mixer or a less ostentatious mixer that is discreetly positioned close to the wall? How about a combination of these options that allows you to use the mixer to the fullest?

A single-lever bath and shower fitting is a perfect match for a freestanding bathtub.

Concealed fittings – the perfect way to conserve space in your bathroom.

# KLUDI BALANCE WHITE

Always fashionable

A bathroom in white is ideal for people who value order and harmony. In a white interior, every detail matters – from a delicate heater with a chrome finish to accessories of varying shapes and sizes. Perfectly matched fittings are essential, as

monochrome interiors in muted colours call for fixtures and accessories that complement the austere design. White mixers from the KLUDI BALANCE WHITE collection masterfully complete the harmonious atmosphere of your white kingdom.

The mixer's lever seems to float above the mixer body.

Chrome elements add a touch of contrast.

The ergonomic lever designed to ensure smooth and fluid operation.

**522469175**  
concealed two-hole  
wall-mounted basin  
mixer

## When less is more

Would you prefer to hide your accessories or to put them on display? Do you prefer flawless minimalism to the lived-in look? Concealed wall-mounted fittings will help you create an elegant interior.

Take care of your loved ones – select only the highest quality and environmentally friendly solutions.

KLUDI BALANCE WHITE

## A perfect fit

A snow-white freestanding bathtub should be both carefully positioned in the room and paired with a tall, elegant mixer. This look will be especially appealing to lovers of organic forms who are inspired by nature.

The minimalist shape of the concealed fitting is a perfect option for modern interiors.

The wall-mounted bath and shower mixer can also serve as a shelf for your cosmetics.

## Design – function and form!

To create a stylistically modest interior that steers clear of pretension, select natural materials, muted colours, and simple shapes that complement each other. But do not forget about functional solutions for your bathroom, like a hand shower and a hose with anti-torsion functionality from KLUDI FIZZ in white series.

The shape of the KLUDI FIZZ hand shower looks like an open palm.

## KLUDI AMEO

### A touch of luxury

A splash of luxury and extravagance can spice up your bathroom interior. Make the look of this functional room more compelling by decorating it using tasteful tones, original finishes, and unusual details. With its simple, rounded form, the new KLUDI AMEO line

reflects the current trend in modern design towards soft minimalism. As well as embodying cutting-edge design, the KLUDI AMEO line offers advanced functionality and a broad range of features – and at prices that will accommodate just about everyone's budget.

The simple shape of the spout and the rounded form of the body of the KLUDI AMEO fitting is guaranteed to appeal to those who appreciate the latest design trends.

AWARD  
WINNER  
2018

The discreet markings for cold and hot water on the handle are small but important details.

The clean lines of the body and handle make this fitting an ideal component of a visually harmonious interior design.

## One series, many possibilities

Do you dream of having a washbasin that is discreetly embedded in the vanity? Or maybe your vision of a perfect bathroom interior includes a standalone washbasin placed on a block of stone? Regardless of your preferences, you will surely find a KLUDI AMEO mixer to complete your bathroom design.

**412980575**

spout height lower edge = 270 mm

## Timeless design

We all love timeless interiors that continue to attract the eye even as fashions change. Add your unique decorative touch by arranging traditional ceramic tiles in a non-standard way. A washbasin mixer installed on the wall can also provide an unconventional accent to an otherwise classic interior.

Each day begins in the bathroom. Going through your morning routine in a beautiful interior is a pleasurable way to start to the day.

A sip of your favourite coffee and a croissant will give you energy and lift your mood.

**412440575**  
concealed two-hole  
wall-mounted basin mixer

## A formula for an original interior

Who says a bathroom has to be covered with ceramic tiles? Choose brick – a wall finishing that has recently become a big hit in the world of design. To create a modern and original interior, combine a brick facade with a tall mixer with a side handle and a wide base.

If you appreciate bold design, you will be drawn to the sleek and slender form of the KLUDI AMEO mixer.

## Fashionable ecology

Conserving water is more than just a way to show your love for the natural environment – it can save you money. These days, water-conserving technologies are available not just for spa resorts and hotels, but for home bathrooms as well.

The s-pointer eco aerator enables you to adjust the angle of the water stream, and lower your water consumption.

413930575  
basin mixer

414240575  
bath and shower mixer

## A balanced interior

White and black, wood and steel, modern and vintage elements – can one interior contain so many contrasts? Of course, it can – just add each element in moderation and choose the proper equipment, such as fittings with delicate shapes.

Fashionable solutions do not have to be expensive. The KLUDI AMEO series combines modern design with an affordable price.

# The art of combining contrasts

Pastels, whites and beiges are the colours most often seen in bathrooms. Break the mould – create a space that is truly original by choosing distinctive textures and intense colours, and then complementing your bold design concept with unconventional furniture, lighting and designer accessories. A simple yet luxurious three-hole mixer will perfectly complete the look. The clean, beautiful lines of the spout and the handles are positively captivating in this striking space.

A flat, elongated handle on a three-hole fitting or a minimalist pointed handle are two options that go well with the design of the KLUDI AMEO series.

## In your style

The design of your bathroom is just as important as the design of your kitchen or living room, and can be tailored to suit your individual taste. Choose the style, accessories and fixtures that go best with your lifestyle.

The round dials of the KLUDI AMEO mixer mirror the cross-section of its body.

The merger of the subtle shape of the spout into the ascending curve of the body is a hallmark of KLUDI AMEO fittings.

# Let your bath last forever

An evening bath is often the only time of the day that you have all to yourself. A moment of relaxation with a book and the sound of calming music is a soothing way to end the day. KLUDI AMEO will transform your bathroom into a comfortable relaxation zone.

The length of the three-hole mixer spout – 220 mm – makes this solution perfect for installation on the wide edge of a bathtub or a shelf next to a tub.

## Invisible perfection

KLUDI AMEO fittings come equipped with the most advanced technologies, such as a reliable ceramic cartridge, backflow protection, and the new s-pointer eco areator that allows you to adjust the water flow and limit it to 6l/min. The KLUDI AMEO mixer is also available with an easy-to-use ergonomic handle and a concealed thermostatic option. The choice is yours.

The shower/bathtub diverter embedded in the curve of the spout is almost perfectly concealed.

## A beautiful form

An elegant fitting can improve the appearance of any shower cabin. Striking shapes, elements hidden inside the wall, and designer dials can dress up an otherwise ordinary shower system.

A wall-mounted shower mixer with a convenient side handle is an innovative solution that ensures comfort.

The wall-mounted fittings have the same lines as the rest of the KLUDI AMEO series.

418350575

## KLUDI BINGO STAR

### A star in your bathroom

In traditional architecture, an arch is a symbol of technical excellence and aesthetic perfection. Can you incorporate an arch into a modern interior? Of course! To soften a raw design, introduce soft, slightly curved shapes.

These details instantly bring a warm and cosy feel to a modern bathroom dominated by glass and concrete. The subtle shape of the KLUDI BINGO STAR spout adds a classic touch to a sleek, minimalist interior.

A tall rotary spout significantly increases the space around the washbasin. Depending on your needs, you can choose a 360° swivelling spout or a model that can be turned 30° to each side.

The cache cascade aerator hidden in the fitting aerates the water and reduces the water flow to 5l/min.

The ergonomic side handle makes the fitting easy to operate.

420230578  
single-lever basin mixer

## The guest bathroom

When designing a small bathroom, select fixtures that allow you to take full advantage of the limited space available. KLUDI BINGO STAR matched with KLUDI A-XES accessories is a formula for consistent and functional design. Try it out for yourself!

## KLUDI OBJEKTA

### Universal and beautiful

It is a universal formula for a beautiful bathroom interior: serene tones, hints of light-grained natural wood, and meticulously matched fixtures. The KLUDI OBJEKTA line is ideal for people who love

subtle forms and simple, bright designs. With its perfectly shaped handle, classic spout and smooth lines, this fitting blends seamlessly into the calm atmosphere of a natural bathroom interior.

Despite being subtle and discreet, the mixer pulls together the design of your bathroom.

Thanks to its organic shape, the handle is easy to use.

The soft, clear line of the spout attracts the eye.

## For the whole family

One mixer for many users? A fitting used by the whole family needs to satisfy everyone's needs. Choose a universal yet tailor-made solution.

## Everything works perfectly!

A carefully designed bathroom in white and wood needs some matching fittings. Concealed mixers in both the bathtub and the shower zone are the perfect choice for a sleek and elegant interior.

For maximum safety, choose a thermostatic mixer with a surface that does not heat up. This feature is especially important if the shower is used by children or older people.

## KLUDI BOZZ

### The essence of minimalism

A KLUDI BOZZ fitting is a great choice for lovers of balanced, economical and minimalist designs. The masterfully crafted line and cylindrical shape

of the spout is ideally suited to modern luxurious interiors in which the emphasis is on the fine details.

The KLUDI BOZZ mixer is the first choice for all interiors inspired by lofts.

The meticulously designed profile of the spout prevents water from spraying.

The discreet marking for cold and hot water is seamlessly integrated into the chrome-finished body.

# Great potential

Open spaces, permeable surfaces – contemporary bathroom designs place a strong emphasis on freedom of choice. A three-hole mixer is the perfect solution for a large washbasin with a spacious vanity. With its tall slender spout and delicate handles, the mixer blends perfectly with the ceramics.

Choose the handle shape you want. Do you prefer a cross-shaped or a straight handle? Which one suits you best?

## A refreshing shower

Do you prefer a standard shower or a luxuriously wide head shower? Regardless of your choice, you will never want to leave the cabin.

Filling your bathtub through the overflow allows you to get rid of a traditional spout.

KLUDI ROTEXA MULTI is an excellent choice for lovers of minimalist design (find out more on page 148).

**386500576**  
concealed single-lever bath  
and shower mixer

## Multitasking – a marker of our times

In a minimalist bathroom, the fixtures often serve more than one function. The KLUDI BOZZ hygienic set gives your wall-mounted toilet the additional functionality of a bidet.

The hand shower of the hygienic set fits your hand like a glove, and the convenient button allows you to turn the water flow on and off.

## KLUDI ZENTA SL

### The new aesthetics

When circles and rectangles merge, the result bears the name KLUDI ZENTA SL. The gentle meeting of fundamental geometrical forms creates a new, light look for washbasins, bathtubs

and showers. Formally sophisticated down to the very last detail, ZENTA SL presents an archetypal fitting design with flowing transitions between the body, spout and lever.

**NEW**

**Archetypal.** Consistent, unbroken lines accompanied by soft transitions, the perfected contours are an expression of masterly manufacturing quality.

The fitting with control elements at the side is cast in a single part and swivels.

The streamlined silhouette of the fitting line suits bathroom ceramics and furniture with a delicate character.

Finish: 05 chrome

single-lever basin mixer 100

## Symbiosis in its most beautiful

Elegant curves contrast with strict lines and emphasises their geometric clarity – a masterpiece of industrial manufacturing quality. Utmost precision and craftsmanship is required here to ensure that soft radii and precise edges harmonise with high-gloss surfaces. Hand-finished contours encased in tangibly smooth chrome bring joy with each use day after day, every time.

Premium, limescale-repellent aerators make it easier to care for and ensure a gentle flow of water at all times. The EcoPlus version with a spout height of 75 mm saves energy by reducing hot water consumption.

## The look of KLUDI ZENTA SL emanates from its form

The streamlined and minimalist design language of the fitting series is inspired by delicate design, a new trend in bathroom design. Thanks to its elegant purism, visible above all in the flat silhouette of the spout, KLUDI ZENTA SL blends perfectly into every timeless urban décor.

## KLUDI ZENTA

### The formula for a beautiful interior

The KLUDI ZENTA line was created for people who place the highest value on order and clean design. In a well-organised interior, each shape is masterfully aligned with every detail, and each element is perfectly coordinated

with every other element. A KLUDI ZENTA fitting will easily complement a geometric interior design, while providing a striking contrast in a modern and slightly minimalist design scheme full of white tones and wood.

The KLUDI ZENTA has an ideal form made up of geometric shapes – circles and squares.

The circle that finishes the handle can be complemented with another element in the interior. How about a round washbasin?

The elegant, balanced and dignified lines of the fitting blend perfectly with a minimalist bathroom interior.

## Choose the best model

Design your bathroom with bold shapes. The strong lines of a hanging cabinet paired with an eye-catching standalone washbasin and a beautiful, slender mixer come together to create a subtle but stunning white interior.

A wide spray provides a strong  
and refreshing energy boost.

**Smooth spray**

If you prefer to wake up gently,  
choose the soft, aerated spray  
in your morning shower.

**Booster**

Feel the tension leaving your body  
as the water works its magic.

# Bathroom rituals

A perfectly designed bathroom always includes space for a bathtub. Just fill the tub with hot water, pour in some essential oils and dive deep into the foam – an aromatic bath that rejuvenates your body and soul can become a soothing ritual at the end of a long and busy day.

The HotStop function in a thermostatic mixer ensures that the water temperature remains stable and prevents scalding (for more information see p. 12).

## KLUDI ZENTA BLACK&WHITE

### Black on white

Do you feel drawn to distinctive and strong combinations of colours and geometric forms? If you are not afraid of making bold design choices, consider the option of a black-and-white colour scheme.

By providing electrifying contrasts of black and white circles and squares, the KLUDI ZENTA BLACK&WHITE fittings prove that when it comes to design, nothing is impossible.

To create a cohesive design, ensure that the black fitting is complemented by other details in the same colour.

Pure white creates a feeling of cleanliness and freshness, while chrome accents can make any shape look bright and shiny.

## Combining elements

Does the bathroom have a colour scheme dominated by black? Break the monotony with shower fixtures in pristine white. Is the bathtub white as snow? A black mixer can provide a bold accent. The final result will be astonishing.

## Opposites attract

Do you go along with the old saying that opposites attract? If you agree that differences are the spice of life, choose contrasting decorative elements – including in your bathroom.

Bathroom interiors in darker colours have recently become fashionable. Will you give this daring option a try?

A bathtub or shower zone with dark walls is the ultimate in elegance. Break the monotony of the black tones with white fixtures.

# KLUDI Pure&Style

## Modern elegance

KLUDI Pure&Style combines top-class design with outstanding functional characteristics. The elegant fittings line blends in well with modern interior design styles and

is excellent proof that style does not depend on budget. KLUDI Pure&Style is a stylish fitting series that is indispensable for planning modern bathrooms.

**Appealing airiness.** The dynamic angle of the fitting gives the design its fresh and light character.

**reddot design award**  
winner 2018

The KLUDI Pure&Style single lever washbasin mixer wins the internationally renowned Red Dot Award for 2018. The award is confirmation of the series' exacting standards for design, function and quality. The straight-lined, yet gently curved look of the SoftEdge design includes functional properties and provides creative freedom.

Finish: 05 chrome

**Perfectly designed.** A stylish bathtub solution, its design harmonizing perfectly...

... with the award-winning washbasin fitting.

## Variety with class

Great variety that takes all bathroom styles into account. KLUDI Pure&Style offers the right fitting for any situation. The single lever washbasin mixer has a water-conserving

aerator that reduces water flow by half. With its straight lines and soft curves, the soft-edge design provides creative freedom in a modern bathroom setting.

The aerator is limescale-resistant, economical in consumption and discretely integrated. It is also easy to clean.

# KLUDI Pure&Solid

## Expressive ergonomics

The classic, timeless design of KLUDI Pure&Solid has an expressive character. With their ergonomic considerations, the fittings prove themselves as solid workpieces of the highest

manufacturing quality. The classic, timeless design balances elegance with most furnishing styles – whether modern or conventional.

The subtly integrated aerator is reliably resistant to limescale and saves water.

KLUDI Pure&Solid is in perfect harmony with angular and round shapes ...

... and thus lets its presence be felt in the bathroom atmosphere.

## Compelling elegance

The premium character of Pure&Solid makes a special impact and projects the functional reliability expected by many customers. It is thus no wonder that it blends

smoothly with all shapes in the bathroom setting – whether they be round or angular. This simplifies bathroom planning enormously.

Design and ergonomics of KLUDI Pure&Solid go hand in hand. The perfectly designed lever ensures easy and comfortable operation.

# KLUDI Pure&Easy

## Straightforward airiness

KLUDI Pure&Easy represents a reduced design that can be seamlessly integrated into modern bathroom style. This versatility is what makes the fittings so

well-liked. An expressive feature of KLUDI Pure&Easy: The dynamic angle of the fitting gives the design its fresh and light character.

Pure white symbolises classy restraint. The white surface looks particularly elegant in bright bathrooms.

The dynamic angle of the fitting gives the design its fresh and young character ...

... and ease of use that quickly catches on.

## Pure freshness that brings joy

KLUDI Pure&Easy is straightforward for bathroom design too, with optimal variants that take numerous application situations into account. The line of fittings impresses users afresh every day. It is of top-class quality that is clear and evident every day. It's great to have something you can rely on.

## KLUDI FLEXX.BOX

### Maximum flexibility

A concealed module is a universal and robust solution. With its exceptional technical parameters, the module is the perfect choice for investment properties and for homes. Made from the highest quality materials, the KLUDI FLEXX.BOX works with almost all wall-mounted KLUDI fittings.

The functionality and quality of the KLUDI FLEXX.BOX are widely recognised: the module has received both the PLUS X Award and the BEST PRODUCT OF THE YEAR 2012 title.

KLUDI FLEXX.BOXX

The KLUDI FLEXX.BOXX can help you conserve space in your shower cabin, and is an especially attractive solution if you value minimalist and modern design.

Time is not a problem! You can select your wall-mounted elements at any time after installing the concealed module.

The KLUDI FLEXX.BOXX concealed module is compatible with the majority of KLUDI fittings.

## KLUDI PUSH

### The touch of water

You will never again have to wait to take a relaxing bath or an energising shower! Set the desired water temperature with the easy-to-use thermostat, and then turn on a warm, uniform flow of water with just a single push of a button. The intuitive design makes this compact fitting incredibly easy to operate.

Choose a model with or without a thermostat, and, depending on the number of water sources you wish to use, with one or two buttons.

## KLUDI A-XES

### Infinite possibilities

In designing your bathroom, do not forget the accessories, which add vital stylistic touches to the interior, while also

providing you with places to store your cosmetics, toiletries and small appliances.

A bathroom should be more than the place where you go through the motions of your morning routine. With a collection of essential oils and scented creams your bathroom can be easily converted into your own private spa resort.

The elegant, chrome-finished handle beautifully complements the other fixtures in your bathroom.

For comfort and convenience, the toothbrush holder should be mounted next to the washbasin.

## Beauty is in the details

Details are essential to your design. After carefully selecting all of the equipment and fittings, you should devote just as much attention to your choice of various bathroom accessories – as in any meticulously planned design, even the tiniest details matter.

ACCESSORIES

**4897605**  
**liquid soap dispenser**  
satin glass

**4897505**  
**glass holder**  
satin glass

**4898505**

## Choose comfort

Does a bathroom need to have a bathtub, or will a shower stall do? It is often said that a bathtub is the best choice for a large bathroom, while a shower is preferable in a smaller space. But does the size of the bathroom really have to dictate the choice?

The shower does not have to be installed in a cabin – you can design your shower enclosure, taking advantage of the curves and niches of the existing bathroom walls.

In a small bathroom you may find space for a shower cabin or a bathtub with a curtain or a glass panel.

## Relaxation zone

A bathroom right next to your bedroom? If you appreciate comfort and convenience, this option may be right for you. To take this idea a step further, consider combining your bathroom with the bedroom. When designing this kind of interior, keep in mind that the two rooms should be treated as a single entity, rather than as two separate spaces.

Use the same colours in the combined interiors. If the bedroom is decorated in muted tones, carry these colours over to the bathroom.

The ultimate in relaxation – it is only two steps from the bathtub to your bedroom.

## KLUDI ROTEXA

### Time to relax

Candles, calm music and a glass of your favourite wine – the perfect setting for relaxation. Thanks to the KLUDI ROTEXA line, nothing will disturb you while you are enjoying this long-awaited moment of rest and meditation in your bathroom. As KLUDI ROTEXA MULTI allows you to fill the bathtub using the overflow, there is no spout to obstruct your freedom of movement or bother you during your bath.

The s-pointer aerator allows the water to flow down the side of the bathtub in total silence.

# KLUDI COCKPIT *Discovery*

## The new way of showering

NEW

Creating something special calls for attention to be paid to every detail. And for a willingness to double-check everything and question conventional wisdom. This is what drove us to re-imagine the control concept of our KLUDI COCKPIT Discovery shower system from the ground up. Our aim was to make it as simple and convenient as possible – for everyone, regardless of their age and capabilities. The large controls are

designed to fit your hand perfectly, providing a secure grip. They are positioned at a convenient height so that young shower users won't have any difficulties either. The 40° rearward tilt significantly improves handling and ease of use. The shape of the handheld shower also reflects ergonomic principles. The handle design and its rounded edges make it a pleasure to hold.

Grip and shower wall bracket are made of solid die-cast. The shower shelf is made of corrosion-resistant aluminium.

Maximum clarity and simplicity invigorate the intuitive control.

Unambiguous and clearly visible pictograms illustrate the functions.

## The high art of simplicity

Aircraft and sports car cockpits are tailored to their users, focusing on maximum clarity and simplicity. Intuitive operation is crucial in both cases. This operating concept served as our inspiration during the development of the KLUDI COCKPIT Discovery shower system. Its control elements are limited to temperature adjustment and flow regulation for the head and handheld showers.

**8020091-00**  
Shower System

## KLUDI FIZZ

### The beneficial power of water

Modern interiors require an innovative approach. Break the mould: bypass a standard round or square shape and choose an innovative triangular

head shower instead. Or go a step further by opening up the room to the outdoors. A glazed wall gives you the sensation of showering in a warm rain.

Do you prefer a large, versatile hand shower, or a smaller hand shower installed next to the bathtub? Choose the option that best fits your needs.

The KLUDI FIZZ 3S hand shower with a convenient and ergonomic spray switch is a perfect example of what modern technology can do for your bathroom.

The KLUDI FIZZ 1S hand shower has an ergonomic shape that fits perfectly in the palm of your hand.

## Elegance and power

Is it possible to create a hand shower that combines beautiful form and cutting-edge functionality? The KLUDI designers took up the challenge and developed a hand shower that has all of these characteristics. Get ready for a powerful experience!

**6770005-00**

KLUDI FIZZ 1S hand shower  
with spray mode: volume  
wall supply with shower holder

A versatile hand shower allows you to choose the right spray for your needs. A volume jet is refreshing and energising.

The delicate smooth spray wakes you up, helping you start the day on a positive note.

The massaging jet is strong and intense, perfect for rejuvenating you after a hard day or an intense physical workout.

**6488005-00**  
head shower 2S

Available in a range of forms and sizes, KLUDI A-QA head showers will be appreciated by connoisseurs of extravagant design.

A head shower with slightly rounded edges is the perfect choice for a bathroom with a natural or softly minimalist design.

A square or a rectangular head shower goes well in a bathroom with a starkly minimalist design.

## A blissful rest

Without a head shower, no shower will be truly perfect. The ultra-thin, beautifully designed KLUDI A-QA head shower provides optimal relaxation. With its elegant, monolithic form and cutting-edge technology, this head shower can make you feel like you are bathing under a waterfall.

## Healthy body...

Do you have an active lifestyle? After a workout, you will want a quick shower. In a matter of minutes, you will be refreshed and ready to go to work.

Busy in the morning? A quick shower will get you ready to start the day.

## KLUDI FRESHLINE

### The source of refreshment

The KLUDI FRESHLINE shower collection combines minimalist contours with high-end functions. While these fixtures appear modest and simple, they offer functions that can make your bathroom feel like an exclusive spa resort. Just because you have a busy lifestyle that

demands practicality does not mean you have to give up on luxury. When choosing the elements of your shower set-up, think about your shower habits. Would you rather have your head shower installed on a shower hook or on a wall rail? It is your choice.

Thermostat-Dual-  
Shower-System DN 15

One hand shower – three different sprays! Just a flick of your finger is enough to switch from a volume jet to a smooth jet or a booster.

Choose the best water flow for your current mood. Do you want to unwind? Or maybe you want a quick and energising shower?

A strong jet of water on your tense muscles will help you slowly relax.

## Being fit – more than fashion

Do you try to follow a balanced diet and to engage in regular physical activity? Then you obviously try hard to take care of yourself. Your efforts at self-care can be complemented by relaxing treatments you can enjoy at home.

Active recreation is more than just a fashion – it is essential for a healthy life.

After an intense training session, there is nothing more pleasant than a relaxing shower.

## KLUDI LOGO

### The relaxing power of water

You deserve a moment of relaxation after a vigorous training session. Taking a shower is no less important than stretching your muscles, as standing under a flow of water is a quick and effective way to rest and regain your strength.

# Universal perfection

The fittings in your shower should suit the needs of all users. Choose classic and elegant universal solutions made of high-quality materials.

The handles of the wall rail can be adjusted up and down.

**6808505-00**  
Dual-Shower-System

Choose the water spray that helps you unwind after a long, busy day. How about a wide, intense spray?

A smooth, aerated spray will quickly and efficiently revive your tired muscles.

You deserve to rest after a tough workout. A massaging jet will make you feel as good as new.

## Live actively

A perfectly equipped bathroom and a functional shower zone are as important as professional exercise equipment. Choose high-quality fittings that are easy to use.

Adjust the head shower to your height by moving it up or down within a range of 30 cm.

Turn the head shower sideways to achieve an optimal angle.

## KLUDI MEDI CARE

### Professional support

A specialised line for professional settings. The KLUDI MEDI CARE fittings are perfect for facilities in which hygiene and safety are the highest priorities, such as clinics, healthcare centres or hospitals.

The specialised lever is very easy to use – you can turn the water on and off by gently moving the lever with your elbow.

## KLUDI PROVITA

### The best care

KLUDI PROVITA fittings have been certified as meeting the highest hygienic standards. These fittings are ideal in hospitals, doctors' offices and other facilities where there is no room for compromise.

The long, ergonomic shape of the lever makes this fitting exceptionally easy to use. The flow and the temperature of the water can be controlled with a delicate flick of the hand.

## KLUDI bathroom fittings

### The choice is yours

The shape of the fitting, the contours of the spout, the height and diameter of the body, the shape of the handle – these and many other important details come into play when you are choosing the perfect fitting. To make the decision easier for you, we have prepared a summary of all of the available series of KLUDI bathroom fittings.

The side view of the fittings can help you compare and contrast the main characteristics and features. Each model has a unique shape that satisfies different needs and complements different bathroom interiors. Choose the fitting that is perfect for you!

## KLUDI fittings come in a range of colours and finishes

The colour brings the interior to life, adding visual interest through striking contrasts or monochromatic harmony. Unconventional

colours and innovative finishes are becoming increasingly prevalent in KLUDI bathroom fittings.

## Icons and functional markings

Our unique and practical designs will satisfy your individual needs. Our fittings are created with you in mind!

**S-pointer**  
Angle of water flow can be adjusted to fit different shaped basins.

**Eco**  
Saves at least 40% water.

**Low pressure**  
Fitting suitable for under-counter water heaters.

**Sensor**  
Fitting with non-contact operation.

**Battery-powered**  
Electronic fitting with battery operation.

**Mains-powered**  
Electronic fitting for 230V AC connection.

**HotStop**  
Fitting with anti-scald limiter at 38°C.

**Surface that does not heat up**  
Specialised technology prevents the surface of the mixer from heating up, protecting users from scalding.

**EcoPlus**  
The middle position of the handle allows cold water to flow. The hot water is turned on by moving the lever to the left.

**Showering hygiene**  
Quick and easy to drain remaining water from the hand spray. No dripping.

**System for the rapid removal of calcium deposits.**

**Versatile Adjustment**  
With the Dual Shower System, you can modify the spray to suit your personal preferences and the size of your shower cabin by adjusting the shower head vertically (up to 30 cm) and horizontally.
